### ENTERTAINMENT

Greg Ellis Creative is all about making sure you have a great time. We use our experience and creativity to produce entertainment that is unforgettable, for all the right reasons.

We custom create entertainment that works with your guests, your venue and the purpose of your function.

### EMCEE

Greg has worked as an MC for diverse audiences ranging from screaming Wellington Sevens Fans to a government jobs summit. And everything in between.

Greg loves finding out about the group he's MCing for, and customising his style to suit perfectly. Whether its in character or as himself Greg brings professionalism, energy and just the right sense of humour to any event.

### TRAINING

We take our flair for interactivity and a good dose of humour and create a training programme that really cuts through. Training with videos and manuals is one thing but Greg Ellis Creative training programmes our practical and theatrical skills together in a training solution especially for your business. One that inspires your team because its all about them and especially for them.

### EVENT IDEAS

With over 23 years of history in the events business the team at Greg Ellis Creative can consult on the best themes, the best ways to bring those to life and the best people to get involved. And if there's nothing ready to go the team at Greg Ellis Creative would love to create entertainment that's brand new, unforgettable and just for you.
